OIL AND GAS

Town lot operators at Evans City, Pa., are getting several lots as indicated by the latest completions. To the northwest of the town lot development and the farthest in that direction, the Clayton and Company well on the Clayton farm has been drilled through the sand and is dry. This well proving a failure shuts out an extension to the northwest as did the Amber Oil Company's test on the Sutton farm put the northeast out of the running.

In the central part of the town lot development and northeast of the well on the Pittsburgh Realty Company's lot, Marburger and Company have completed a well on the Marburger lot and have a duster. This location seems to be just far enough to the east to catch the dry streak running through the town. Six or more dusters have been completed on that line and the dry streak would be had enough on small lots but the way dry holes have been coming in makes matters still worse. Those operating on farms are the only ones that stand a chance to make a winning. Just a very few of the wells on town lots will pay back the money invested in bonuses and drilling expenses. Drilling on town lots is an old game and at no time in the past has it been beaten and Evans City will not prove an exception.

Recover Tools.
The Pittsburghers who won the good producer on the Pittsburgh Realty Company's lot have been fortunate in getting out of what looked to be a very serious fishing job. The tools were stuck in the hole shortly after the well was drilled into the sand and for several days the well did not flow. After pulling and tightening the casing they bailed out the water and then took hold of the tools and jarred them loose. The well is now flowing by heads, but not so frequent as before the tools were stuck. The well was drilled a

little deeper yesterday and its production increased. The South Penn Oil Company is building the rig over its No. 5 on the B. F. White farm and will agitate it and probably drill it a little deeper.

A report received from Evans City late last evening stated that the Rushville Drilling Company's well on the Sutton lot, east and across the creek from the South Penn Oil Company's No. 1 on the B. F. White farm, had been drilled into the sand and had made three five-barrel flows. The South Penn Oil Company has drilled No. 6 on the B. F. White farm six feet into the third sand and it was showing some oil. Fowler and Company's well on the Sutton lot was drilling in the top of the sand but

not deep enough to get the pay.

Southern Ohio.

Light wells are the best the southern Ohio fields have to offer. In the deep sand territory near Nashport, Hanover township, Licking county, Whitehill and Heasley have completed and shot a second test on the V. K. Herenden farm and the well produced fifty-five barrels the ensuing twelve hours. The location is 700 feet southwest of No. 1 on the same farm.

In the shallow sand territory in the Chester Hill district, Fairfield township, Washington county, Lawrence Stephens has drilled a second test on the Dawson Goddard farm through the Keener sand and has a gasser. In the same district Lawrence Stephens has drilled a second test on the James Carrothers farm and has a four-barrel pumper. In Wesley township, Burns and Company have drilled No. 16 on the Q. M. Russell farm through the Cow run sand and has a show for a very light pumper.

Light Wells at Newport.
Near Newport, in Newport township, Washington county, Mendenhall and company have completed No. 36 on the John Berg farm and have a very small pumper in the first Cow Run sand. In this same district the Crescent Producing Company has drilled No. 25 on the Palmer heirs' farm through the Mitchell sand and has a ten-barrel pumper.

In the northeast quarter of section 14, Knox township, Columbiana county, the Stocker Oil Company drilled a second test on the Hunsmann heirs' farm through the Berea grit and has a small gasser. In Darlington township, Stark county, one mile west of Alliance, Johnson Brothers have drilled their test on their own farm through the Berea grit and found it barren. They will drill deeper in search of a lower producing formation.

West Virginia.
On Rowell's run, Center district, Calhoun county, W. Va., the Carter Oil Company has drilled No. 17 on the Rebecca Curry farm from the salt sand to the Berea grit and has a light pumper in the lower formation. In the Weir sand development on Blue creek, Elk district, Kanawha

county, the Ohio Fuel Oil Company's No. 1 on the Garland Anderson farm producing eight barrels a day, was given a shot and placed 133 barrels to its credit the ensuing twenty-four hours. In Washington and Duval districts, Lincoln county, the South Penn Oil Company has started to drill Nos. 27 and 28 in the Horse creek tract. In the same district the United Fuel Gas Company has started to drill No. 5 on the Horse Creek Coal and Land Company's tract.

Producers and Refiners' Company quotes \$1.35 for crude of the Pennsylvania grade.

TRAIN RIDERS JAILED.
Phillip Gredreg and Eli Boelno are prisoners in the county jail waiting a hearing in Magistrate T. G. Nicewarner's court on a charge of unlawfully riding on a train in the local railroad yards. They were arrested late Tuesday by H. J. Weaver, of the Baltimore and Ohio police force.

UNCLE PETE

By GOLDBERG

Uncle Pete Has the Idea, All Right!

HE knows that the soothing taste of "Tux" is to the taste of ordinary smokes as the mellow music of a grand piano is to the jarring rattle of a dishpan. A pipe of "Tux" is like a gleam of sunshine on a rainy day. A few puffs and you'll feel cheerful as a

whistling farmer boy in the dewy morn.

"Tux" smokes up cool as a chunk of ice at the North Pole. It looms above 'em all like a rose bush in a turnip patch. Want to know why? Then read on.

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

Tuxedo is made by the secret and original (get that?—secret and original) "Tuxedo Process," which removes all—absolutely all—the sting and irritation. You can smoke Tuxedo from cock-crow to good-night without a "bite."

Tuxedo is all original—it's the original non-bite tobacco, the original nation-wide smoke, the original and only tobacco to be endorsed by distinguished men in all walks of life.

Try Tuxedo for a week—you'll be swearing by it long before the time is up.

YOU CAN BUY TUXEDO EVERYWHERE

Convenient, glassine wrapped, moisture-proof pouch 5c
Famous green tin, with gold lettering, curved to fit pocket 10c
In Tin Humidors, 40c and 80c. In Glass Humidors, 50c and 90c.
THE AMERICAN TOBACCO COMPANY

R. L. GOLDBERG
Famous Cartoonist—Creator "Foolish Questions"—"I'm the Guy," etc.
"I find in Tuxedo a good tobacco. Its fragrance and flavor are fine. I use it regularly and endorse it highly to all my friends."
R. L. Goldberg
